

Minister – Living Water Uniting Church, Humpty Doo, NT

Living Water is seeking a new 0.5FTE minister or pastor who can support us to continue to build our worship, community and our witness to the wider community; a person who is down-to-earth, able to teach and preach in ways that are relevant to people's lives and build our faith. We need someone who is strongly relational – to have deep pastoral skills to listen well and be able to give wise, practical and godly counsel. We are a praying church, and our process of finding someone to continue to support God's mission through Living Water is one that we will be covering with prayer. We wait confidently to discover who that person will be.

We are a “worshipping, Christ-centred, Spirit-filled community who love and encourage each other. Through preaching, teaching, serving and sharing together, we grow in faith and witness to God's presence in the world.” This statement very much reflects who we are. We are a diverse community – if views on politics and many social issues were discussed, there would be a large spectrum of opinions. Our focus is on Christ, His call on our lives, and our need to serve and love our community. The worship centre's physical openness (roller doors that open so we have no side walls, and a huge ceiling fan that cools the worship space effectively) parallels the welcoming and accepting, relaxed and friendly character of the congregation. Our vision is “Connecting our community with the love of Jesus” and we have developed, over many years, a connection with the community of Humpty Doo and beyond, across the Rural Area of Darwin. <https://lwuc.org.au>
