

Pimpama Uniting Church has been set in a small, rural-style 'village' church for a long time, but now finds itself in the middle of one of Qld's fastest-growing suburban regions.

The Congregation is at a critical point, needing a ministry agent initially for a 2 year commitment (potential call for a longer trajectory) with a community heart and investment to move the Congregation forward in developing the church's ministry and mission into a new season. This would include building capacity among lay leadership and Church Council. This .3 placement is an exciting, creative and challenging opportunity for discipleship and growth by building upon the current missional connections (OpShop and cafe group) and thereby potentially increasing the placements funding.
